

Canada: the Only *Civilized* Nation with **NO** Legal Restriction on **Abortion**

How civilized is that?

On January 28, 1988, the Supreme Court of Canada struck down Canada's only abortion law. Since that ruling, abortion is available on-demand through all nine months of pregnancy up to the moment of delivery for any reason or no reason.

Below are the results of legal abortion in Canada:

- Over 3.5 million pre-born children have lost their lives to abortion since 1969*
- Abortion is available throughout all nine months of pregnancy
- 300 abortions occur every day in Canada*
- 1 in 3 women undergoing abortion have already had one or more*
- Post-abortive women are at greater risk of psychiatric problems during the 3-month period following the abortion**
- Abortion on-demand costs Ontario tax-payers over 50 million dollars every year

Isn't it time our laws were more civil?

Join Cambridge Right to Life for a peaceful demonstration at MP Gary Goodyear's office (1425 Bishop Street) on Friday, January 25th, 2013 from 1-2 pm.
